Scott's SEED FOR SUNNY LAWNS

This is the Regular Mixture, finest blend of grasses for open or lightly shaded lawns. Growing ability and freedom from weeds are assured in every package because of Scott's triple cleaning and laboratory testing.

The combination of choice perennial grasses including Creeping Bent makes Scott's lawns smooth, sparkling and sturdy. That is why users from Maine to Mexico have prize winning lawns every year.

Scott's SEED FOR SHADED LAWNS

The best selection of perennial grasses for use on lawn areas receiving less than a half-day of sunlight. Produces brilliant green turf of unusual beauty. Harmonizes with plantings of other Scott's Seeds in the same lawn.

Scott's Seed for Shaded Lawns matches the sturdy, weed-free quality of Scott's for Sunny Lawns.

Scott's CREEPING BENT

For over 20 years Scott's Creeping Bent has been making lawns of exquisite beauty and velvety texture equal to the finest golf putting greens. This seed is recommended for old or new lawns in full sun or partial shade. The cost is reasonable since the 8,000,000 seeds per pound plant a much larger area than other seed.

STOLONS—Those planting new lawns in the late summer or fall may prefer the vegetative method of planting with Stolons. This insures mature turf in less time. Further details and prices on the other side.

Scott's WHITE CLOVER is not used in Scott's mixtures because it is better sown alone. Good seed is high and scarce since the European supply is cut off.

Scott's TURF BUILDER

The full beauty of your lawn can be brought out only by proper feeding each spring and fall. Turf Builder supplies all the elements needed in the correct proportion. Its double action gives quick stimulation to grass as well as slow, long-lasting nourishment.

Turf Builder is the most economical grass food because it feeds three times more lawn than ordinary fertilizers. Ten pounds to the 1,000 square feet will sustain a vigorous sward of established grass. Use twice as much before seeding a brand new lawn to insure quicker formation of a better sod.

SPREADERS for Scott's Seed and Turf Builder

Anyone can sow Scott's Seed and apply Turf Builder evenly and accurately with one of these special spreaders illustrated and described on the other side. The cost is soon saved in labor and material.

LAWN CARE The preceding bulletins have been assembled in a file with heavy paper binding at 25c, and in a deluxe loose-leaf binder at \$1.00.

SPREADERS for Scotts Seed and Turf Builder

With one of these sturdy, light weight machines feeding and seeding is no task at all because it can be completed in just a few minutes. They avoid the waste of excessive applications and result in smoother lawns of more uniform color and growth.

The adjustments are positive and simple to make. The rotary agitator insures an even flow from the hopper and the strong disc wheels give years of service. Shipped complete with directions and chart showing settings for various application rates.

No. 10—Regulated by inserting plate at bottom of hopper. Shut-off control on handle. Spreading width 16 inches. Hopper capacity 10 lbs. Turf Builder or 5 lbs. Scotts Lawn Seed **\$3.50**

No. 25—Rubber tires. Method of regulating same as No. 10 but sturdier construction. Width of spread 18 inches. Hopper capacity 25 lbs. Turf Builder or 15 lbs. Scotts Lawn Seed **\$6.50**

No. 50—Rubber tires. Convenient rate adjustment and shut-off control on handle. Width of spread 20 inches. Hopper capacity 50 lbs. Turf Builder or 25 lbs. Scotts Lawn Seed **\$12.50**

No. 100—Rubber tires on double wheels. Rate adjustment and shut-off control on handle. Width of spread 36 inches. Hopper capacity 100 lbs. Turf Builder or 50 lbs. Scotts Seed **\$24.50**

Scotts CREEPING BENT STOLONS

These chopped roots and runners are planted instead of seed in building new lawns. They develop a thick, solid turf of remarkable beauty and texture in record time (six to eight weeks). Suitable for fall planting only and available

from August through November. Their perishable nature requires that they be planted the same day they arrive. Order by square feet of area to be planted and please specify date on which you want delivery.

Enough stolons to plant 100 sq. ft. **\$ 2.50 Express Paid**
Enough stolons to plant 500 sq. ft. **10.00 Express Paid**

Enough stolons to plant 1,000 sq. ft. **\$17.50 Express Paid**
Enough stolons to plant 5,000 sq. ft. **80.00 Express Paid**
